Number Sentence _____

Answer _____

While the placement test, also available FREE, helps you know where to start a student in the mastery series!

Word Problem Strategy

This is a variation of Polya's UPSC strategy.

Understand the problem

 Read the problem.

Underline the question.

 Paraphrase the question.

What are you being asked to figure out?

How many steps do you need to do? One or more than one?

Make a plan

 Circle the numbers that you need.  Cross out the ones you don't

 Estimate an answer. Is your final answer going to be bigger or smaller than the numbers in the problem?

 Translate the words of the problem into a diagram or equation.

Do the math

Important Numbers

1 year = 365 days

1 month = 28/29, 30, or 31 days

1 week = 7 days

1 day = 24 hours

1 hour = 60 minutes

1 minute = 60 seconds

5,280 feet = 1 mile

3 feet = 1 yard

12 inches = 1 foot

In addition, each packet has a strategy reference sheet & a conversion table!
